## Top Skills

Computational Physics
DevOps
User Interface Design

## Languages

Hebrew (Elementary)
Spanish (Professional Working)
English (Native or Bilingual)
German (Limited Working)

## Certifications

Master of Science
Bachelor of Science
National Center of Academic Excellence in Cyber Defense Education

## Honors-Awards

Rotary Youth Leadership Award
National Merit Scholarship Finalist
Dean's List
Eagle Scout

## Publications

Collaborative Environment for Education in VR

# Colter Snyder

Software Engineer
Evergreen, Colorado, United States

## Summary

I am an E2 Engineer for ISSI working on simulations and modelling for Government customers.

## Experience

### Innovative Scientific Solutions, Inc

Software Engineer II
December 2024 - Present (1 year 11 months)

Work with simulations and modelling for creating war games for Government customers.
Skills include:
Front End Development
- Tauri
- Angular
- HTML
- CSS
- Typescript

UI/UX Design
Back End Development
- Rust
- Python
- Flask
- WebSocket
- Docker
- MongoDB

Scientific Computation
- Rust
- Python
- FORTRAN

DevOps
- GitLab
- SonarQube

## Colorado School of Mines

1 year 5 months

### Postgraduate Research Assistant

May 2024 - December 2024 (8 months)

Golden, Colorado, United States

Worked under the supervision of Dr. Mehmet Belviranli to help develop an AR application for cleanroom training in conjunction with University of Arizona. Skills include Computer Vision, Unity, Python, and Backend Development

### Graduate Research And Teaching Assistant

January 2024 - May 2024 (5 months)

Golden, Colorado, United States

Worked under the supervision of Dr. Gabe Fierro to perform essential research tasks in relation to a project funded by the National Alliance for Water Innovation (NAWI) involving the novel use of graph databases in the daily operation of water treatment plants. Worked with Dr. Christopher Painter-Wakefield to assist in his teach endeavors.

### Adjunct Professor

August 2023 - December 2023 (5 months)

Golden, Colorado, United States

Co-Taught a section of CSCI 220: Data Structures and Algorithms to 120 undergraduate students with Dr. Christopher Painter-Wakefield.

## Tyler Technologies

### Software Development Intern

May 2023 - August 2023 (4 months)

Lakewood, Colorado, United States

Worked on projects related to converting current applications to the cloud from VB6 to C#. Worked on both backend development and test development in C#.

## Colorado School of Mines

### Adjunct Professor

January 2023 - May 2023 (5 months)

Golden, Colorado, United States

Taught a section of CSCI 102: Intro to Computer Science Lab to 90 undergraduate students at the Colorado School of Mines

## WOODROW WILSON ACADEMY ELEMENTARY SCHOOL

### Educational Assistant

September 2022 - December 2022 (4 months)
Westminster, Colorado, United States

Performed work as a long-term substitute teacher teaching subjects in STEAM related fields to grades 1st through 6th including robotics and space exploration. Provided substitute teaching services for the school as a whole.

## Colorado School of Mines
2 years

### Computer Science Department Summer Intern
May 2022 - August 2022 (4 months)
Golden, Colorado, United States

Similar responsibilities to 2021 summer internship, now with the added responsibility of teaching grades 4-6 in addition to grades 7-10.

### CS Outreach Webmaster
August 2021 - May 2022 (10 months)
Golden, Colorado, United States

Worked on various tasks in the Department of Computer Science for Dr. Tracy Camp.  Primarily focused on editing and managing the DECtech website (tech.mines.edu). This involved primarily front end (HTML, CSS, and Javascript) development.

### Computer Science Department Summer Intern
May 2021 - August 2021 (4 months)
Golden, Colorado, United States

Designing curricula, working with current curricula, and teaching for various summer camps designed to teach youth grades 3-10 in STEM and Computer Science. In addition, helped to design and teach teacher professional development including co-presenting a workshop at InnEdCO 2021.

### Undergraduate Research Fellow
September 2020 - April 2021 (8 months)
Golden, Colorado, United States

Working under the supervision and direction of Dr. Sebnem Duzgun, current project is “Virtual Reality for Engineering Training” where responsibilities include developing and designing a backend and frontend to ensure the most efficient collaborative experience for students in VR. Will publish research in April 2021.

## Colorado School of Mines
### Undergraduate Research Assistant
October 2019 - May 2020 (8 months)

Golden, Colorado, United States

Worked under the supervision and direction of Dr. Qi Han for the project “Quality-aware Audio Multicast in Low Power Wireless Networks”, under the lead of Shneka Swamy, as a developer with two other developers also a part of the team.

### Church of the Hills
A/V and Computer Systems Technician
February 2016 - August 2019 (3 years 7 months)
Evergreen, Colorado, United States

Performed a combination of volunteer and paid work for the Church of the Hills in Evergreen, Colorado. Responsibilities included managing visual slideshows and sound systems during both services and funerals as well as maintaining and upgrading current computer systems used within the Church.

---

## Education

### Colorado School of Mines
Master of Engineering, Nuclear Engineering · (August 2026 - May 2031)

### Colorado School of Mines
Master of Science - MS, Computer Science · (January 2022 - May 2024)

### Colorado School of Mines
Bachelor of Science - BS, Computer Science · (August 2019 - December 2022)

### Evergreen High School
High School Diploma · (2015 - 2019)
